

Carer Information Sessions

Occurring across Nottingham and Nottinghamshire

As part of our Dementia Connect service offer, we are delighted to be able to bring you our valuable and insightful carer information sessions, happening across the county and city throughout the year.

These are a really good way to meet with fellow carers, establish networks and discuss all things dementia and caring with our dedicated dementia advisers.

Please see the contact details below to discuss your needs further and for details of how to book on our courses.

**Here for everyone
affected by dementia**
