

“Nisai plays a big part in helping us address the issues of inclusion and engagement, helps boost the confidence of our students and encourages them to achieve their full potential.”

We deliver personalised learning solutions helping solve the dilemmas and challenges of the hard to educate students both in school and out of school.

Our innovative and effective solutions overcome barriers to learning and achieve successful outcomes. Our results speak for themselves.

Our flexibility of scheduling, pricing and location makes us the perfect partner.

Let us help you remove barriers to learning created by:

Autism

Asperger's

ADHD

ME

Medical issues

School refusers

School phobias

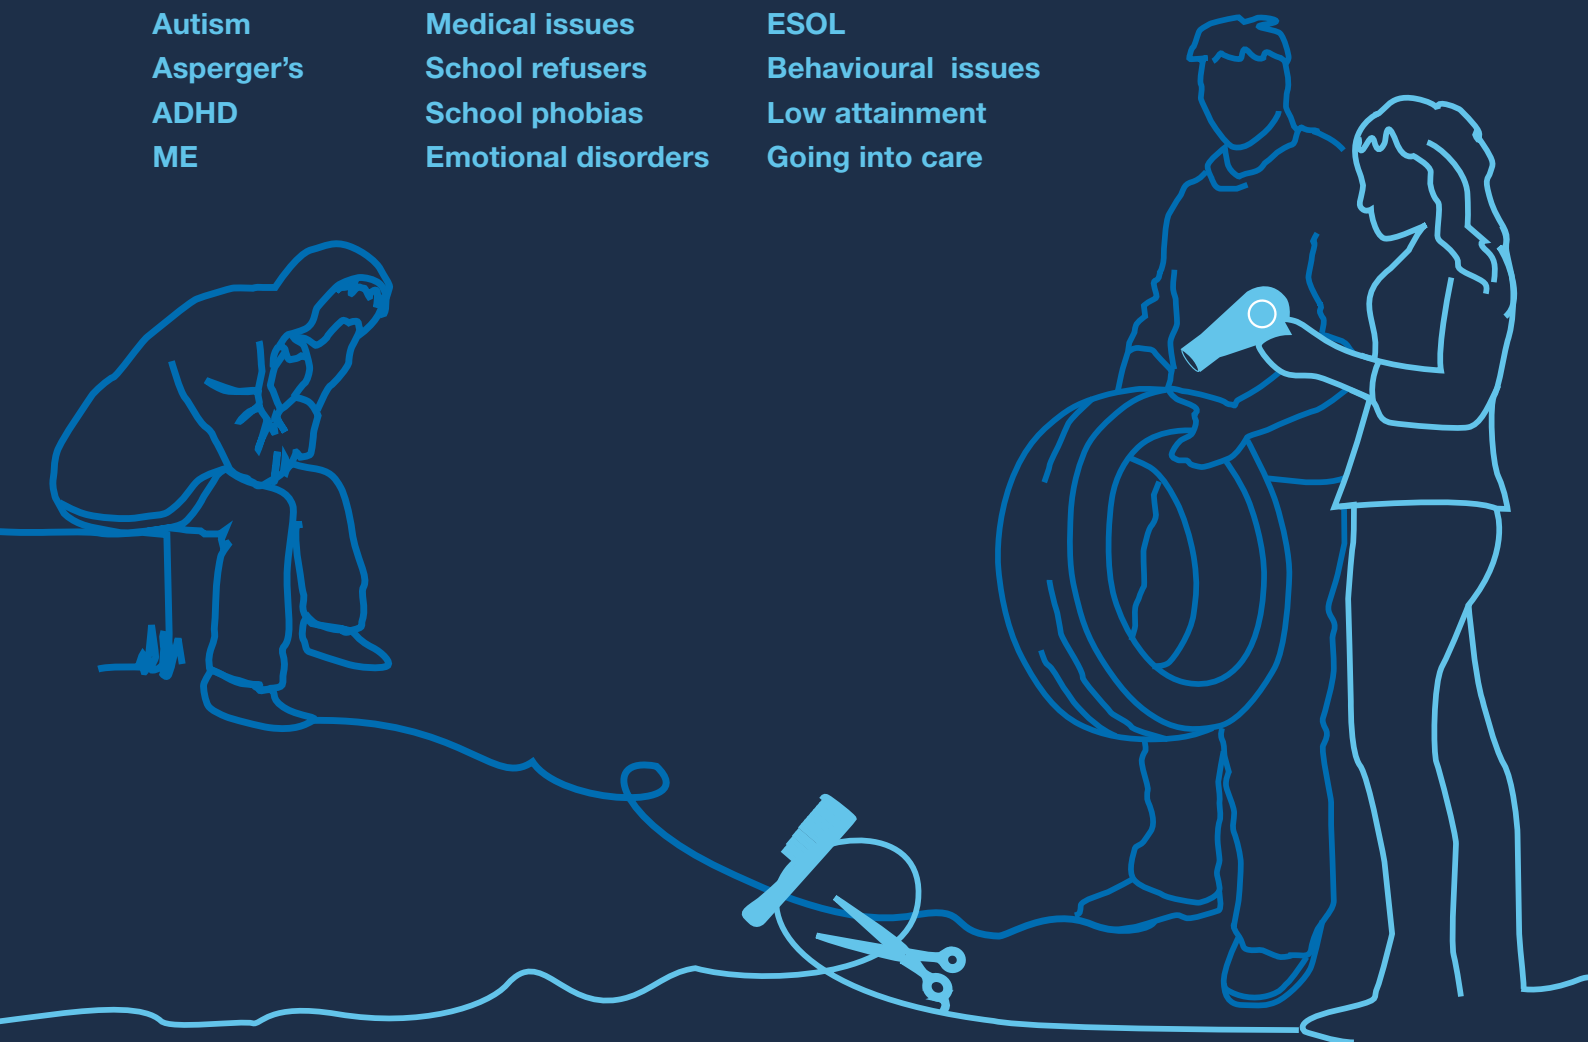

Emotional disorders

ESOL

Behavioural issues

Low attainment

Going into care

NISAI Learning helps students and organisations by overcoming their barriers to success through a broad range of personalised educational services that bridge gaps in education or provision.

We work with

Schools and Academies

Further Education Colleges

Local Authorities:

- PRUs
- Looked After Children
- SEN
- Initiatives to tackle NEETs

Care Homes

Parents

In each case, we work to support the individual learner who may be struggling, and provide, depending upon the need:

- Academic courses
- Working skills
- Personal skills

Our support can be to fill a short term need or for a long term solution to education.

“I was out of education for three years and found it really difficult to get back into. My local Connexions service recommended Nisai which is really enjoyable and makes learning fun.”

Teenage Mother

“Nisai has proved a very successful partner in providing opportunities for long term non-attendees to gain qualifications, re-integrate into mainstream education and develop social skills.”

Hull Behavioural & Educational Support Team

“Being part of the Nisai Virtual Academy has given me hope that I can actually gain something in life and that I can succeed. It has been able to do what no other school has been able to ...”

Disaffected Student with ADHD

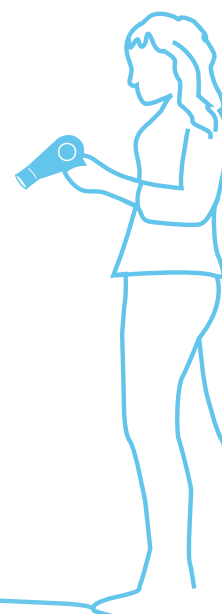

Why Nisai's Pedagogy Works For Many Students To Overcome Learning Barriers

Barriers to Learning	Nisai Approach	Outcome to Support Learning
Learning issues	Course structure of weekly mix of "live" scheduled lessons, plus self-paced learning activities and assignments	Develops core learning skills as building blocks
Short concentration span Poor working memory Tiredness due to ME, etc.	Shorter, more frequent lessons	Maintains attention with engaging lessons for shorter periods
Boredom of the standard classroom	Computers, headsets and texting	Classroom communication is built around how students act when not in school – online with their friends or texting
Getting lost in a large class	Small classes	Teachers really get to know the students
Need to learn slowly and go over materials multiple times. Missed lessons due to illness	Recorded lessons	Ability to review lessons as many times as needed
Needing to find help with assignments and studies 24/7	Online Resources	Opportunity to explore resources to help with assignments
Fear of asking a stupid question	Private Chat Area	Ability to ask a question of the teacher without the rest of the class knowing
Embarrassment of being with younger students because of issues with literacy	Class groupings by ability and not age	Students are at the right level to progress rather than with an age group
Constant Absenteeism/Missing in action	Automatic reporting	Auto alert goes out within 10 minutes if a student is expected to attend a lesson, but has not logged in

We achieve great results for hard-to-reach students in partnership with you, in your choice of location.

Our reports on attendance, behaviour and contribution keep you informed and all of our Schemes of Work and resources are available for you in the customer portal.

What we deliver

Academic	GCSE: Maths, English Literature, Science, Additional Science, Economics, History, Geography
	General Certificate in English Language

Our courses can be customised to your needs

We provide 3 unique delivery options to suit your students' needs.

The Nisai Virtual Academy

For students who cannot attend school, this alternative provides complete academic and personal support along with social support and guidance, with house tutors and clubs, all delivered to the student at home.

The Nisai Learning Zone

Provides academic and/or personal wellbeing courses to your school or site to support specific students who need additional help.

The Nisai Learning Hub

Provides both hands-on vocational training plus online academic training at our centre or yours.

Call us to discuss your needs.
